

Sligo Child Development Center

We welcome all our families to the Sligo Child Development Center. We believe in quality child care, provided in a safe nurturing and loving environment. Best wishes for a year filled with fun, growth, positive communications and partnership.

Share Time

If you are available to share with children your knowledge about a place you have lived or visited, a personal collection, hobby or special career, the preschool classroom invites parents to participate in their monthly share time. This time could be spent reading stories to the children or playing a musical instrument in a sing-a-long.

Please let the teachers know in advance if you can participate.

Happy Birthday Wishes!!

January -- Neida Fuentes (1/16/03) and Meklit Abebe (1/20/03)

February -- Thania Hernandez (2/21/03) and Javar Wallace (2/26/05)

Sign Language

We have invested and have purchased 13 volumes of sign language program CDs. This program is designed specifically for preschoolers. It combines song, animation and singing. We will learn signs such as: eat, drink, water, cereal, milk, banana, juice, Mom, Dad, diaper, potty, etc. We will have fun while learning to sign.

Reminder

Some of you are forgetting to bring bed linen for naptime and also a extra set of cloth when children have an accident.

From The Desk of the Director

Early Literacy - According to the Department of Education, the size of a child's vocabulary is a strong predictor of reading and success in school. The vocabulary level of an average child's picture book is greater than found on Primetime television. This is one of the many reasons it is so important to read out loud with your child everyday. Literacy develops long before children enter elementary school. In fact, research shows that success in high school is highly dependent on early literacy and language skills in the first five years of life. Research also shows us that the involvement of a parent or teacher is critical to the readiness of children as they enter school.
